Subject Fw: Pebble Baseline Agency Meetings - REMOTE PARTICIPATION INSTRUCTIONS

I just wanted to remind you about the Pebble meetings that are occurring this week starting today and going through Friday noon - Cindi and I will participate in person for most sessions , and Michelle Davis will also be there part of the time - I will send the final agenda to you in a separate email. Please leave me a voice mail message if you have trouble logging on - I will check my voicemail during the course of the day and do my best to help solve the problem. Thanks, Dianne

Subject FW: Pebble Baseline Agency Meetings - REMOTE PARTICIPATION INSTRUCTIONS

Dianne,

I'm resending this to you, and copying those individuals you said would be attending the meetings remotely, to ensure they have the information below in time to participate in Monday's practice session.

MCTS

Subject: Pebble Baseline Agency Meetings - REMOTE PARTICIPATION INSTRUCTIONS

Dianne,

Thanks for sending me the names of four EPA representatives who will be participating remotely to access the Pebble baseline agency meeting presentations. Any other individuals who are interested simply need to follow the instructions below. It looks overwhelming, but it's really pretty easy. I strongly urge participants to participate in the practice session next Monday. It'll be quick and will ensure no problems logging on for the presentations.

Please let me know you've received this and forwarded to your team. Thanks.

MCTS

Northern Dynasty is pleased to offer you an invitation to remotely join the online web broadcast "webinar" of the 2006 Pebble Project Baseline Environmental Team Agency Meeting presentations that will occur at the Downtown Marriott Hotel in Anchorage from November 28 through December 1. This service is being provided to allow agency personnel and consultants who are unable to attend the meetings in person an opportunity to view the presentations real time via the internet and a conference telephone call-in for simultaneous visual and audio participation.

Do not be intimidated by these instructions – it's really quite simple.

You will need to register separately for each of the 4 days of meetings, and for an optional Monday (November 27) webinar practice session. Links for online registration for each of the four presentation sessions, and the practice session, are provided below. You may register at any time: ahead of a particular session, when the session is about to begin, or during a session. After registering, you will be provided with instructions and a separate link to reach

each online session. Use the link provided to join that session.

Note: If you register ahead of a session, you have the option on the “Thank you for registering” screen to click a link to automatically store that session’s information and link on your Outlook Calendar. Do this. If you can’t find a session link, you can always register again (from the links below) when you want to log on.

When you open a session link, you will be prompted to open and run a small program that will enable you to view the presentation screen and a toolbar. After opening the webinar program “g2m_download.exe” you will be prompted to provide the password “fryingpan” to join the session. This same password will be used for all 4 day sessions and the practice session. Be sure to save this password as it may not be provided in subsequent automatic webinar e-mails or outlook calendar listings.

After you have logged into a session, the webinar application will display the PowerPoint slides as they are being presented. There is a small toolbar in the application that allows you to control the screen size on your monitor. Note that if you maximize the presentation view to take up your entire screen, you will need to use the toolbar controls to minimize the screen to regain access to your normal desktop.

The webinar toolbar has a section for sending text questions directly to the webinar administrator (Jason Gray, who will be present at each session). This question section can be used to get help with the webinar program.

Alternately, call the webinar administrator at (907) 748-6547 if you need assistance. To ask the conference presenter questions about his/her presentation, please use the separate conference call audio; presenters will not be monitoring the webinar text questions.

In order to pre-test the webinar setup, there will be an optional practice session on Monday, November 27th at 1:00pm AST. We strongly urge you to register and join this short practice session to test your system, connection, and your technology IQ prior to the actual baseline sessions.

In addition to the webinar presentation of slides, you will need to call in via telephone to a toll-free conference number to hear the presentation audio and to ask questions, just like a traditional conference call. The toll-free conference call number for all 4 days, and for the practice session, will be:

Toll free number: 1-866-315-6079

Access code: 339-2607, followed by #

You will be able to use the conference call to ask questions of the presenters. Please be sure to first identify yourself and your organization when you speak on the conference call. If you have questions that require you point to or draw on the presentation screen, it will be possible for the presenter to turn over control of the cursor to you. Please initiate any request for cursor control via the telephone conference call. Once you are connected to the conference call, use *6 to mute your telephone microphone if you don’t want to be heard, and #6 to un-mute your line if you wish to speak.

Pebble Project Agency Meeting - Practice Session Monday 11/27/06
